DETAILED ACTION

Drawings

Figures 1-3 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Eric Chen on 6/30/2009.

The application has been amended as follows:

In the specification:

- Please replace paragraph [0001] of the specification filed on 10/31/2003 with the following paragraph:

[0001] This is a divisional application of U.S. Patent application Serial No. 09/698,783, filed October 27, 2000, now U.S. Patent No. 6,800,071, which is a continuation-in-part application which claims priority from U.S. patent application Serial No. 09/429,352, filed October 28, 1999, now U.S. Patent No. 6,248,093, which claims priority from U.S. Provisional Patent application Serial No. 60/106,237, filed October 29, 1998.

In the claims:

- Please cancel claims 9, 11, and 46-49.

The following is an examiner's statement of reasons for allowance: The prior art made of record did not disclose or suggest an external infusion device comprising the combination of limitations recited in claim 1. The closest prior art, US Patent No. 5,993,423 to Choi, did not disclose or suggest a vent port covered with a hydrophobic material wherein the material is formed as a sheet attached to the housing and applied over the vent port as is now recited in claim 1. Choi discloses a reset button that can be made of semi-permeable material but Choi does not disclose that the button is in the form of a sheet attached to the housing and applied over the vent port. It is clear that the button resides in the port and cannot be considered a sheet. Furthermore, there is no motivation to make the button in a sheet form as it is not clear that a sheet would be able to perform the function of a button as is required by the disclosure of Choi.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to THEODORE J. STIGELL whose telephone number is (571)272-8759. The examiner can normally be reached on M-F 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nicholas Lucchesi can be reached on 571-272-4977. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
